Long Chase After "Black Birder" Gang Ends in Capture of Entire Crew.

HAD LONG SPREAD TERROR ON THE SEA

ONOLULU, Hawaii, Sept. 27.— Finally the chase for the "Black Birders," a nirate crew that has been terrorizing the smaller islands of the South Seas, has ended, according to a wireless message received here today from Capt. Tapham of the Revenue cutter Keokuk.

Every man of the pirate band was captured, after a hard fight. The prisoners will be brought to San Francisco. Tapham will recommend that all be Pretty Girl Is Pirate Chief.

Among the pirates, who have been boarding small ships and plundering coast villages with impunity, Capt. Tapham found a beautiful young Spanish girl, Estella De Oriez. She, the report says, is adored by the pirates as their most precious treasure. She had been supported to pirates. are. She had been among the pirates for 10 years. Captured as a Child.

Estella was five years old when she fell into their hands. Her father was the captain of the trading schooner Santa Maria which sailed from Manila 10 years ago. Nothing was ever heard

The chief of the pidates confessed to Capt. Taphams that his band sunk the boat and saved only the beautiful child.

### OKLAHOMA SENATOR MAY AID NEW BANK

Institution With \$5,000,000 Capital Planned for Central West With Owen a Stockholder.

St. Louis, Mo., Sept. 27 .- With the departure today of Dr. John T. M. Johnston for his home in Kansas City, it was learned that he would be aided in the formation of the proposed national reserve bank in St. Louis by United States senator Robert L. Owen, of Oklahoma, and William E. Haisell, of Vinita.

Despite a denial from Washington Saturday by senator Owen's secretary that the senator was interested as a stockholder in the new bank, it is generally understood among local bankers that Owen will be a stockholder if the institution is established as planned.

The new bank as outlined by friends of Dr. Johnston, is to have a capital stock of \$5,00,000. Whether the new bank will be formed outright or will be created through the merger of two or more St. Louis financial institutions, is not definite. Officers of all the St. learned that he would be aided in the is not definite. Officers of all the St. Louis banks which have been mentioned in connection with the new in-stitution have dealed having any con-nection with the Johnston project.

## Baby Born in New York Is Heir To \$15,000,000

New York, Sept. 27.—It was learned tonight, for the first time, that a son was born to Mr. and Mrs. Malcom D. Whitman, at their Fifth avenue residence, last Sunday. The Whitman baby (he has not yet been named) will be heir to more than \$15,000,000. Mrs. Whitman was Miss Jennie Crock-er, of San Francisco, and she inherited

a fortune of more than \$10,000,000 from her father, Fred M. Crocker, and her

her father, Fred M. Crocker, and her uncie, George Crocker.

Mr. Whitman is the eldest son of Wm. Whitman, of Boston, one of the largest manufacturers of woolen goods in New England and head of the Woolen Manufacturers association, of Massachusetts.

While Malcom Whitman is now practicing law in New York he will inherit a large professor of his father's willings and large portion of his father's millions and this in turn will go to the baby. Mr. Whitman was for years one of the leading American tennis players.

Youth Who Has Command of \$140,000,000, Will Boost the Southwest.

IS STUDYING THE WORK BEFORE HIM

EW YORK, Sept. 27.—The fact that young William Averil Harriman, just of age, a June graduate of Yale, has the final say in the disposition of the \$140,000,000 secured by the Union Pacific for its Southern Pacific holdings, has turned the atten-tion of Wall Street to this son of the late E. H. Harriman of whom little is known by the great financiers, among

whom he is known by the weight of his father's money.

Judge Lovet, his late father's right hand man, tells them that the young man will hold his position by weight of ability as he grows older and there is no shrewder judge of men in the street than this quiet, forceful Texan. Averil Harriman is an out of doors man. At Yale he was head coach of the boat crew and showed the possession of much executive ability.

Would Develop Southwest.

Would Develop Southwest.

In an interview today he said:
"My ambition is to aid as i can in the development of the great west and southwest. That is the land of tremendous possibilities. In the development of these possibilities there lies the greatest work a man can undertake. He is sure of his reward both in the satisfaction of duty done and in material wealth as well.

Just now I am devoting my time to the study of the great properties in which I am interested. I intend to know all about them, both from the operating and financial view points.

Thore has been in the past much friction between the railroads and the public. A great deal of this I am convinced, is without proper cause. Their interests are identical and there must be a way to make them both see that by working in harmony all will benefit. by working in harmony all will bene-fit. To discover how this may be done and do it is surely worthy the best interests of a young man." Is an Athlete.

Mr. Harriman is fond of athletics and is an athlete of class himself. "I ex-pect some day," he said, "to be able to spend some of my time on a ranch in the southwest. I know of no other may to secure the rest and relaxation which all business men must have."

Mr. Harriman declined to give any intimation as to what he intended to do in regard to that \$149,000,000.

Tariff to Give Surplus.

After making calculations this afternoon, experts announced that the tariff bill agreed to in conference yesterday would yield revenues in excess of the expenditures of the government of between \$12,000,000 and \$16,000,000. The senate provided that the tax with respect to incomes should likewise "be levied upon all in this as such may become due or payable to any non-resident alien subject to the exemptions and deductions provided, which shall be made at the source in his behalf."

The house objected to this provision and it was eliminated.

Chairman Simmons, of the house committee, today predicted that the proposed cotton future tax would go out of the bill. The house probably will agree to the Smith-Lever compromise. The senate will reject it and the conferees then will report in favor of striking the Clark amendment from the bill.

"I see no reason why we should caucus on the cotton tax proposition again in the senate. The vote for the Smith-Lever amendment was very small in the caucus and I have heard of no change of sentiment that would justify taking the subject up again. Between Tombstone and Tucson some very bad roads were encounterred, as a result of recent rains. Road gangs are at work in many places putting the road in shape, but the going was not good for the pathfinders. Our party passed a Tucson automobile 50 miles out of Tucson, broken down in a sandy wash, but it had already summoned aid from Tucson, so we passed on.

The country is beautiful between Tombstone and Tucson and 15 miles of the new state highway winds like a corkscrew in and out among the Santa Rita mountains. We had to make slow time over it tonight as we hight after dark and the curves are numerous and dangerous.

It is also admitted that within this territory there is a more stable government at this moment than exists elsewhere in Mexico.

Former President Believes His Presence Would do More Harm Than Good Now and Thinks the Right Man Will Appear in Time and Unite the Warring Factions in Stricken Country.

B IARRITZ, France, Sept. 27.—Porfirio Diaz has been rather amused by the story that he had sailed for Mexico to pacify his country. "I have no intention to go to Mexico for the present at least. I would be able to do no good there if I went. My unfortunate country must work out

its own salvation. I am too old to undertake the task of pacification. "I fear my presence in Mexico would do more harm than good. "I cannot say whether that will come or not, but if it did I should feel compelled to go. I do not consider that there is any likelihood of war between the United States and Mexico.

"I could have stifled the Madero revolution if I had cared to, but I felt that if it came to a head it would be better for the country. But it now looks as though the republic would not be pacified for a long time. The rebels take the field because they wish to live by pillage and robbery."

## U. S. TO RECOGNIZE GAMBOA, SAYS BURGES

EXICO will be recognized by the United States as soon as the elections are held and senor Gamboa is elected, R. F. Burges, who has just returned from Washington predicts.

"Just so soon as the elections are held with a reasonable show of regularity, and senor Gamboa is declared elected in a reasonably peaceful manner, he will be recognized by our government," Mr. Burges says. "The promptness with which this ercognition is given, will depend upon the appearance the elections will have from this angle, but I am satisfied that the United States will waste little time in recognizing anyone but Huerta who is elected president of Mexico. Once this recognition is given, the revolution will be stamped out and Mexico will return to her normal condition among natious."
